ЗМІСТ

Foreword

Zagorodniuk, I. Faunal research and analysis of fauna changes as one of the key tasks of regional zoological studies (editor's foreword) 4–5

Part 1. Mammal fauna composition

Kyrychenko, V. Mice of the genus *Sylvaemus* (Rodentia, Muridae) in Mykolaiv Oblast (Ukraine) 6–11

Markovska, O. Finds of rare and non-abundant species of small mammals in the territory of Kharkiv Oblast, Ukraine 12–18

Savarin, A. Findings of little known insectivore species (Lipotyphla) in Belarus: critical analysis and issues of diagnosis 19–28

Terletsy, V. Vernacular names of mammals in the village of Libukhova, Lviv Oblast, Ukraine 29–32

Part 2. Protected fauna

Artamonov, V., Legky, S. Mammals of the region of the Buzkyi Gard National Park 33–42

Dobryvoda, I. New records of rare and non-abundant mammal species in Medobory Nature Reserve and its vicinities 43–49

Zagorodniuk, I. Express assessment of a land area for its biotic value and for monitoring of long-term biota changes 50–54

| | |
|--|-------|
| <i>Zadorozhna, G., Ganga, D.</i> On the bat fauna of the Dnipro-Orilskiy Nature Reserve | 55–60 |
| <i>Lazariev, D., Moroz, V., Koroletska, L.</i> Species of herbivore mammals in Striltsivsky Steppe and their environment-forming role for the ecosystems of the nature reserve | 61–71 |
| <i>Selyunina, Z., Moskalenko, Yu.</i> Small mammals in diet of the barn owl (<i>Tyto alba</i>) in the Black Sea Biosphere Reserve | 72–76 |
| <i>Tsvelykh, A.</i> Research into the mammal fauna of the Sviatoshynsko-Bilychansky forest within the Holosiivsky National Nature Park | 77–82 |

Part 3. Finds and reviews of rare species

| | |
|--|---------|
| <i>Drebet, M.</i> The western barbastelle (<i>Barbastella barbastellus</i>) in Podillia: a phase of population growth | 83–91 |
| <i>Evstafiev, I. L.</i> Chorology of the steppe birch mouse <i>Sicista loriger</i> (Nathusius, 1840) in the Crimean Peninsula | 92–99 |
| <i>Zagorodniuk, I.</i> Strand's birch mouse (<i>Sicista strandi</i>) in the fauna of Ukraine: analysis of zoological collections of natural history museums | 100–106 |
| <i>Ilykhin, Y.</i> The superfamily Dipodoidea in the collection of the Museum of Nature of V. N. Karazin Kharkiv University | 107–112 |
| <i>Novak, V. O., Novak, V. V.</i> Monitoring of the <i>Cricetus cricetus</i> L. population in the Upper Pobuzhzhia region | 113–118 |
| <i>Timoshenkov, V. A.</i> Findings of the common hamster (<i>Cricetus cricetus</i>) in Kharkiv Oblast, Ukraine | 119–124 |
| <i>Shevchyk, L. O., Lechachenko, S. A.</i> The European hamster (<i>Cricetus cricetus</i>) in Podillia: description of a new settlement and the finding of a melanistic form | 125–130 |

Part 4. Species on the margins of distribution

| | |
|--|---------|
| <i>Barkaszi, Z.</i> The pygmy wood mouse (<i>Sylvaemus uralensis</i>) in the region of the Ukrainian Carpathians | 131–135 |
| <i>Veselskyi, M.</i> The hamster and ground squirrel (<i>Cricetus cricetus</i> et <i>Spermophilus odessanus</i>) in the north of their range in Zhytomyr Oblast, Ukraine | 136–139 |
| <i>Vikyrychak, O.</i> New data on the expansion of the European beaver (<i>Castor fiber</i>) on the left bank of the Middle Dnister | 140–144 |
| <i>Evstafiev, I. L.</i> Accidental and deliberate movement of animals and pathogens of natural focal infections to new territories | 145–154 |

| | |
|---|---------|
| <i>Moroz, V.</i> The European mole (<i>Talpa europaea</i>) in the Siversky Donets region: new data on the species' distribution in Luhansk Oblast, Ukraine .. | 155–160 |
| <i>Omelchenko, Y.</i> The forest dormouse (<i>Dryomys nitedula</i>) in the north of Odessa Oblast: a new find in coastal regions of Ukraine | 161–163 |

Part 5. Research of particular species

| | |
|---|---------|
| <i>Volokh A., P. Gorlov, V. Siokhin, I. Polishchuk.</i> Species identification of the greater noctule bat (<i>Nyctalus lasiopterus</i>) by its records with detector .. | 164–174 |
| <i>Zagorodniuk, I.</i> A pipistrelle bat on a ship on the Black Sea: facts, hypotheses, and comparisons with mainland specimens of <i>Pipistrellus</i> | 175–183 |
| <i>Terletsy, V.</i> Findings of overground nests of rodents in the Ukrainian Beskids (upper course of the Dnister) | 184–187 |
| <i>Torop, S. O.</i> The stone marten (<i>Martes foina</i>) in vicinities of Nikopol, Ukraine | 188–190 |

Part 6. Chronicles and information

| | |
|--|---------|
| <i>Zagorodniuk, I.</i> An overview of publications of the Theriological School in professional issues and volumes of the <i>Proceedings of the Theriological School</i> during its "professional" period | 191–195 |
| <i>Lysenko, V.</i> Why the steppe marmot (<i>Marmota bobak</i>) should not be included into the Red Book of Ukraine | 196–198 |
| <i>Kharchuk, S.</i> Promotion of the idea of biodiversity protection through the celebration of animal days | 199–205 |
| Information about the issues of <i>Novitates Theriologicae</i> (2000–2020) | 206–207 |
| Contents | 208–210 |
